# The Diamond Method

Jill has devised a six-pronged musical approach to speaking English that guides second language professionals to clear and confident speech. These newfound communication skills lead organizations to greater inclusion, collaboration, and efficiency. The Diamond Method will:

- ✓ Show learners specific speaking tools that will increase their credibility so that they can have the career they dream of having.
- ✓ Allow learners to bring their accents and full selves to work.
- ✓ Reduce frustrations during cross-cultural communications so that interactions are based on trust and respect.

### **Thought Chunking:**

Pausing and pacing communicate confidence, facilitate thinking, and establish trust with listeners.

### **Emphasis:**

Knowing the right words to emphasize in a sentence delivers messages clearly and accurately.

### **Rhythm:**

Using the correct syllable stress of English is at the foundation of being understood by native English speakers.

### **Melody:**

Applying the musical patterns of sentences with stepping & gliding techniques allows for native-like speech.

### **Diction:**

Sounding professional and building rapport with others requires clear pronunciation.

### **Flow:**

Connecting and reducing words like native English speakers gives you the flow you need to sound more American.

# Jill's Communication Principles

## **Breath**

Infusing breath into your speech provides vocal support and enhances oxygen to your brain for idea flow.

## **The Voice**

Projecting your voice like an instrument includes understanding vocal dynamics and The Diamond Method.

## **Self-Awareness**

Staying aware of yourself while you are speaking will allow you to adjust your communication to new levels.

## **Relaxation**

Relaxing the neck and shoulders allows for better resonance and placement of American English.

## **The Body**

Matching your gestures to your speech puts your communication at an advantage and enhances rhythm.

## **Impromptu Speech**

Learning tricks to prepare for impromptu speaking will help you to speak with authority and confidence.

## **Posture**

Standing and sitting well communicates presence and allows for proper breathing when speaking.

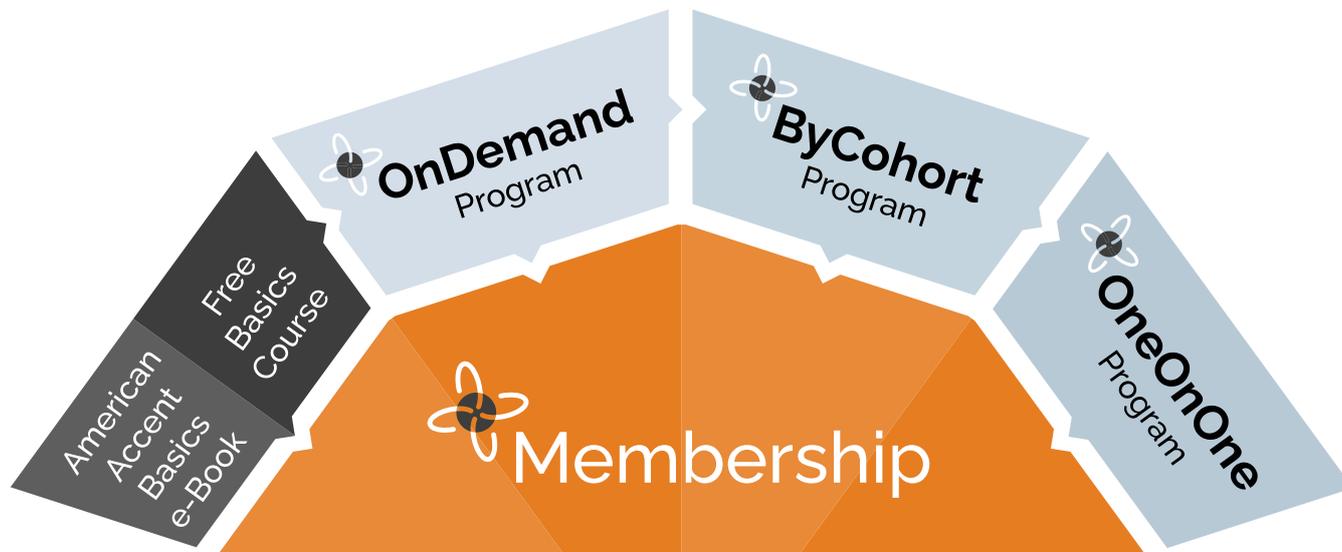

## **The Message**

Organizing your message into simple structures can allow you to resonate on a wider scale.

## **Preparation**

Being communication-ready means preparing and practicing your communication out loud.
